## The ultimate home for the growing family

Generously sized the four-bedroom Quartz offers the ultimate mix of private and shared family areas and boasts a clever layout to make ample use of space.

Being the heart of the home, both the open plan living and kitchen area, and the dining connect to your private alfresco area, extending the living area to the outdoors to create the perfect space for entertaining. Relax in the separate media room which could also be used as a kids rumpus room or simply retreat to your private master suite with an expansive walk in robe and ensuite at the end of a busy day.

Additional features such as a separate laundry, study room, storage area and double garage allow this home design to offer something for the whole family.
